

HELP REBUILD KRONOS

In the Percy Jackson series, Kronos is one of Percy Jackson's biggest threats. He not only threatens the demigods but the Gods on Olympus. In the story Luke, of House Hermes, helps rebuild the titan piece by piece. Now you have a chance to put yourself in Luke's shoes and build the Titan to full strength.

1.) Teams will line up behind the designated starting cone.

2.) On the "Go" command teams will run out to collect their blocks one at a time.

3.) They will grab that block and run it back to their building area. Once there they will high five the next teammate to go out.

4.) Once all blocks are collected they must flip over the page in their building area, and must build the same structure as shown. First team to do so wins.
